# MODERN INVESTMENT THEORY & PRACTICE for Retirement Systems

**SACRS PUBLIC PENSION INVESTMENT MANAGEMENT PROGRAM 2020**

**FEATURED SPEAKER ▶ VIKRAM MANSHARAMANI**

All sessions are in webinar format.

## KEEP EXPERTS ON TAP, NOT ON TOP

Managing experts and technologies is one of the most vexing challenges of our time. It's about overcoming the problems of siloization and specialization. It's about taking control of tough decisions, and it's about tapping into expertise as needed. But ultimately, it's about (re)learning to think for ourselves. This concept and reality inspired Vikram to write his forthcoming book, *Think For Yourself*, which attempts to take the problem of siloization and contextualize it, noting how it affects life and decision-making in the 21st century.

As a past speaker at SACRS, this topic may be of interest and relevant to Members particularly Trustees and Investment Staff that are tasked with the decision to hire and rely on experts (investment firms) to manage investment portfolios.

*Included in the registration fee; Attendees will receive 24 hours of continuing education, a UC Berkeley certificate of completion and Vikram Mansharamani new book "Think for Yourself: Restoring Common Sense in an Age of Experts and Artificial Intelligence".*
