

Celebration Recognition Program

In 2024, SACRS commemorates 70 years and still going strong in our unwavering support of educating those that provide retirement security to California's public employees. This is an incredible milestone, and we hope your organization will consider supporting us at this special time in our history.

SACRS planning teams have been hard at work on ways to mark our Platinum Jubilee. With these plans come opportunities for your organization to share the spotlight. There will be more opportunities than ever before, including an additional online presence, for your organization to be seen as leaders and influencers. With a host of options at a variety of price points there is sure to be a sponsorship that aligns with your marketing goals.
